

Request for Architect/Engineer Design Services

Architectural design services for full design specifications for complete well system for irrigation and domestic water supply in the Embassy compound located in Lozenets district, Sofia, Bulgaria; estimated construction cost is between \$50,000 and \$100,000.

Firms responding to this announcement on or before closing date will be considered for selection using the following evaluation criteria in descending order of importance:

- * Relevant, professional qualifications of the firm in the type of work required for projects having a construction value between \$50,000 and \$100,000 in the past three years;
- * Specialized experience and technical competence in the type of work required;
- * Demonstrated success on similar projects in terms of quality of work and compliance with performance schedules, cost/schedule controls and program/project management techniques. Briefly describe internal quality assurance and cost control procedures and indicate effectiveness by listing budget/estimated construction cost, award amount, final design estimate and construction changes for five recent projects. Although previous or ongoing performance of a similar U.S. Government contract is not required for firms responding to this solicitation, if such contracts have been performed, the offeror must have performed at a satisfactory level; and
- * Personnel capacity to accomplish the work in the required time.

The Embassy will select for negotiation the licensed firm that demonstrates the best qualifications. Replies to this advertisement with a completed Standard Form 330, (available upon request), must be received not later than noon local time on Thursday, May 28, 2020 at SofiaProcurement@state.gov .
